

Product Name :
An Assortment of Equipment Used In Testing Cement

Product Code :
LIM-CAT-L0043-00012

Description :

An Assortment of Equipment Used In Testing Cement

Technical Specification :

An Assortment Of Equipment Used In Testing Cement.

This include the following: -

Grout Flow Cone Sets

ASTM Test Sands for specific test methods are available in a range of compositions and grades and meet specific ASTM and AASHTO standards.

LeChatelier Specific Gravity Flask

Cube Molds

Prism Molds

Length Change Test Apparatus

Vicat Apparatus

Mortar Penetrometers

Flow Tables

Laboratory Cement Mortar Mixers

Grout Prism Capping Stand

Grout Sample Box

Moist Cabinet

Trowels with straight or curved.

Gillmore Needle Apparatus

Blaine Air Permeability Apparatus

Fineness of the Hydraulic Cement Test Apparatus
Masonry Grout Window
Strain Gauge Set
