

Product Name :
Manual Concrete Finishing Float

Product Code :
LIM-CAT-L0024-00023

Description :

Manual Concrete Finishing Float

Technical Specification :

Manual concrete finishing float
Unique profile with which the floor can be smoothed precisely.
Light and easy to use
30 mm aluminum handle bar with plastic coating protects the aluminum surface from concrete splashes.
The standard handlebar is 2 or 3 meters long.
The length of the handle bar can easily be doubled if an extra-long reach is required.
All parts are easy to assemble and disassemble.
The profile of the Patches can be supplied in different widths or, if necessary, cut to the right size .
