

Product Name :
Wax Processing Equipment (Honey)

Product Code :
LIM-CAT-L0042-00052

Description :

Wax Processing Equipment (Honey)

Technical Specification :

Wax processing equipment (honey)
Thermostatically controlled Boiler
Heavy duty stainless steel tank with plastic lid.
Capacity - Will melt 15kgs of clean wax.
Handles - Two insulated handles make it easy to lift while avoiding burns.
Element -Under the base of the tank, out of contact with water and wax and protected from mechanical damage.
Rating - 1800 W.
Control Thermostat -calibrated from 30 C to boiling.
Neon indicator included.
Power supply - 220-240V AC.
