Product Name : Shelby Thin Wall Tube Sampler Product Code: LIM-CAT-L0044-00022

Description:

Shelby Thin Wall Tube Sampler

Technical Specification:

Shelby thin wall tube Sampler

The thin-wall tube (Shelby) sampler is commonly used to obtain relatively undisturbed samples of cohesive soils for strength and consolidation testing.

The sampler commonly used has a 76 mm (3.071 in) outside diameter and a 73 mm (2.875 in) inside diameter, resulting in an area ratio of 9 percent.
