

Product Name :
High Accuracy Liquid Metering Pumps

Product Code :
LIM-CAT-L0046-00013

Description :

High Accuracy Liquid Metering Pumps

Technical Specification :

With the best diaphragm sealing technologies, these reciprocating pumps are capable of injecting liquids to processes with a high degree of discharge accuracy at high pressure without causing leakage.

Main Features:

High discharge accuracy
A wide turn down ratio
A wide selection from tiny flow to huge flow
Allowable pressure up 120MPa
A Diaphragm Condition Monitoring System is provided
Compliant with international and national standards
Sanitary/hygienic designs are available optionally.
