

Product Name :
Split Wall Type Airco Unit

Product Code :
LIM-CAT-L0011-00005

Description :

Split Wall Type Airco Unit

Technical Specification :

Split Wall Type Airco Unit

Split air conditioning refreshing:

Control the indoor climate with innovative inverter technology; powerful 18000 BTU/xx kW cooling capacity with economical consumption with energy efficiency class A ++.

Inverter technology for low energy consumption, low noise development, low temperature fluctuations and quickly reaching the desired temperature..

Integrated 4-stage fan: with horizontal and vertical vibration function for better air circulation including remote control with ifeel temperature sensor

Practical: works light on the display of the device and the on/off switch on the remote control.

DC converter: cooling down to -15 °C outside temperature possible

5 operating modes: auto, cooling, dehumidifier, fan and heat.

220V/1Phase/50Hz.
