

Product Name :
Sectioned Rotative Compressor

Product Code :
LIM-CAT-L0012-00004

Description :

Sectioned Rotative Compressor

Technical Specification :

Sectioned rotative compressor

Rotary Screw Compressor Cutaway: realistic, sectioned rotary screw compressor as commonly found in manufacturing plants, and other industrial applications. This device includes a 7-gauge formed-steel mounting baseplate, allowing for stand- alone use, bench-top mounting. Through sectioning, the complete internal configuration of this compressor can be seen, while allowing for disassembly for more complete inspection.

All primary features and the basic flow path have been retained, and replacement hardware is provided where appropriate. Sectioning of actual industrial hardware; common compressor makes and models chosen for industrial relevancy, Cleaning, priming, and painting using a high- durability urethane coating, Color-coding of component parts.

Replacement, plated hardware, where required, 4- Gauge, formed-steel, powder-coated baseplate with compressor attachment piers, 343 x 457 x 432 mm, 12Kg.
