

Product Name :
Feeler Gauge

Product Code :
LIM-CAT-L0051-00004

Description :

Feeler Gauge

Technical Specification :

Wide Application: Suitable for designers, engineers, mechanics to measure the thickness of tappet clearances, spark plugs gaps, bearing clearances, piston ring gaps and other hard to get places.

Manufacturing Material: Made of high quality spring alloy steel material, strong and durable, which undoubtedly extends its service life.

Easy to Use: Easy to use and fine workmanship. Without any difficult requirements even though you use it for the first time.

Laser Engraving Line: engraving line, clear and wear resistant. Constructed from hardened tempered steel with a lube oil coating to prevent pitting and corrosion.

International manufacturing standards and offers features such as high quality and long service life.
