

Product Name :
Internal Micrometer Set

Product Code :
LIM-CAT-L0051-00032

Description :

Internal Micrometer Set

Technical Specification :

Tubular micrometer measures the inside dimensions of cylinders, rings, and parallel surfaces.
Vernier scale in metric units for taking precise inside dimension (ID) measurements.
Includes interchangeable extension rods for a diversified range of measurement.
Slow head travel helps provide fine positioning.
Solid extension rods help provide durability.
Capacity: 25-55 mm complete with extension rods, spacing collar and fitted case.
Accuracy: 0.001 mm.
