Product Name :
Sensors in Motor Vehicles

Product Code :
LIM-CAT-L0052-00005

Description :

Sensors in Motor Vehicles

Technical Specification :

1 experiment board with real automotive sensors
Inductive rpm sensor
Phase pickup sensor
Throttle-valve switch
MAP sensor
Knock sensor
NTC and PTC temperature sensors that heated
Operational model of an intake duct with throttle valve, fan, throttle valve potentiometer and air-flow meter
CD-ROM with Lab software browser and course detail explanation and animation
With Storage case for the experiment board.
