

Product Name :
Additional Hardware for Interactive Course Automotive
Electrical Test Lamp

Product Code :
LIM-CAT-L0072-00008

Description :

Additional Hardware for Interactive Course Automotive Electrical Test Lamp

Technical Specification :

Additional Hardware for Interactive Course Automotive electrical (Test lamp)

Vehicle voltage tester.

Max. current consumption 1.5 mA, suitable for finding faults in circuits with electronic components. Polarity indication via two LEDs.

Nominal voltage range: 3...48 V

Length of lead: 150 cm"
