

**Product Name :**  
Profile Depth Meter

**Product Code :**  
LIM-CAT-L0072-00048

**Description :**

Profile Depth Meter

**Technical Specification :**

Profile depth meter

A simple way to check your tire tread depth is by using a tread depth gauge.

All you have to do is stick the probe into a groove in the tread and press the shoulders of the probe flat against the tread block and read the result.

Made of Brass.

Surface finely ground.

With dove tail guiding and Vernier reading.
