

Product Name :
Cylinder Head Gasket Tester

Product Code :
LIM-CAT-L0072-00051

Description :

Cylinder Head Gasket Tester

Technical Specification :

Cylinder Head Gasket Tester

Fast and convenient. Most importantly you can check whether the head gasket of your car is fully functional without visiting the mechanic.

If the head gasket looks damaged, you can check it yourself and save time and money.

Thanks to the universal adapter with a wide measuring range (25-55 mm), we can check among other things: cars, trucks, road tractors, excavators, motorcycles and forklifts.

For the localization of leaks in combustion engines.

Rational and reliable detection of cracks and leaks.

Possible CO₂ content in the coolant is detected.

Use with cylinder heads, cylinder head gaskets and engine blocks.

Leakage visible through discoloration of the test fluid.

For all common vehicles with water-cooled engines (gas, diesel and gasoline).
