

Product Name :
Automotive Lab Soldering Iron

Product Code :
LIM-CAT-L0072-00084

Description :

Automotive Lab Soldering Iron

Technical Specification :

Soldering iron
High quality long lasting ceramic type heater.
Ideal for hobbies, kits, radios, and electronics work.
Iron plated tip and stainless steel construction offer longer steel construction offer longer life.
Suitable for soldering small relay connections, etc.
PTC heating element for short warm-up time, internally heated soldering tips.
Micro solder joints
Approvals
Supplied with pencil sharp long life soldering tip and holder.

Technical Data:
Rated power: 25W
Input voltage: 230V
Plug type F - Schuko
Tip series 172
Soldering tips temperature: 450°C.
