

Product Name :
Battery LED Work and Workshop Light Adjustable with Magnet

Product Code :
LIM-CAT-L0072-00092

Description :

Battery LED Work and Workshop Light Adjustable with Magnet

Technical Specification :

Battery LED work/workshop light adjustable with magnet

Features:

Charging via USB cable (matching USB charging cable included).

Rechargeable battery 3.7 Volt and 2200 mAh for long usage time

Continuous operation with the included power supply is also possible

With the help of the hook at the top end, the range of use of the lamp is further extended

Light levels are continuously adjustable between 10 and 600 lumens by means of a practical selection dial

Versatile use: flashlight, inspection light, work lamp, automotive work light

600 lumen neutral white light (ideal for work in the workshop or garage)

COB principle (chip on board) for good room illumination

At full level, the lighting time is 2 to 3 hours, at 10 lumens, the operation can be extended up to 20 hours

Strong magnet on the base for adhesion to all metallic surfaces such as car bodies, underbodies, machines, lifting platforms or other workshop equipment.

Scope of delivery:

Rechargeable LED work lamp / workshop light

USB charging cable

USB charging plug (5V 1A)

Luminous flux 10 to 600 lumens (stepless)
Power 10 Watt
LED number / LED technology 1 x 10W COB
Input voltage 230 Volt
Input frequency 50 Hz
Battery specifications 3.7 V / 2200 mAh
Lighting time (at full level) 2.0 - 3.0 hrs.
Charging time 3.0 hrs.
Charging technology USB cable
Cable length 1.2 m
Dimensions 388 x 47 x 46 mm
Energy efficiency class A+.

Laboratory instruments manufacturers India
