

Product Name :
Water Quality Testing Equipment Kit

Product Code :
LIM-CAT-L0083-00001

Description :

Water Quality Testing Equipment Kit

Technical Specification :

Chemical water quality test kits are available for measuring various substances in water. These are offered in a wide variety of choices by Instruments, two of the industry's leading manufacturers of water quality testing equipment. Water Quality Test kits range from easy-to-use, single parameter color comparators to comprehensive portable laboratories with advanced instrumentation - for fast, accurate results in the field or labs.
